

# Congress Large Cap Growth Fund

Retail Class: CAMLX

Institutional Class: CMLIX

## Investment objective: Long-term capital appreciation

### The Fund

The fund invests in a portfolio of 35-45 established growth companies. Investments are predicated on a company's future prospects rather than economic or market cycles. We value consistent profitable growth versus a growth now, profits later approach.

### Approach

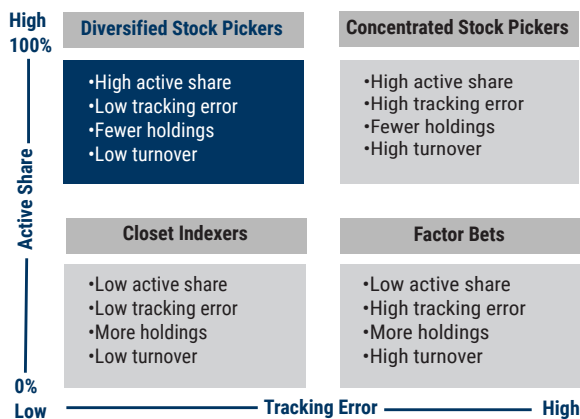

We employ a bottom up fundamental process seeking to identify investments in companies with solid fundamentals, emphasizing earnings growth consistency, free cash flow, and solid balance sheet metrics.

### Key Differentiators

Investing in companies positioned for growth coupled with risk management techniques may provide the foundation to build a high conviction portfolio with consistent return generation and lower realized volatility.

## Active Management and Active Share

Styles of Active Management comparing active share to tracking error helps identify different styles of active management

### Active Share

Describes the percentage of the portfolio that is different from the benchmark; higher the active share the greater the potential to outperform its benchmark<sup>1</sup>

- Above 60% truly active
- Below 60% closet indexer

### Tracking Error

Measures the returns deviation from the benchmark; an index fund should have a tracking error of zero relative to its benchmark and an absolute return, benchmark-agnostic strategy could have a tracking error greater than 15%

Congress Large Cap Growth	
Active Share	73%
Tracking Error <sup>2</sup>	2.66
Holdings	35-45
Annual Turnover	25%-50%

High 100%

Congress LCG

Low 0%

Diversification does not assure a profit or protect against a loss in a declining market.

### Hypothetical Growth of a \$10,000 Investment

Retail Shares - Since Inception 3/31/09 to 06/30/2017

This Chart is for illustrative purposes and does not imply future performance. Assuming reinvestment of dividends and capital gains, but does not reflect the effect of any applicable sales charge or redemption fees.

### Average Annualized Performance (%)

as of 06/30/2017

Inception Retail Shares 3/31/2009. Gross Expense Ratio 1.33%.

Performance data quoted represents past performance; past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the fund may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by calling 800-542-7888, or visit the fund's web site at [www.congressasset.com/funds](http://www.congressasset.com/funds). Investment performance reflects fee waivers in effect. In the absence of such waivers, total return would be reduced.

Benchmark: Russell 1000 Growth

Fund holdings and sector allocations are subject to change and should not be considered a recommendation to buy or sell any security.

- waived or reduced by Advisor at any time; or
- met by aggregation of customer accounts to accumulate requisite minimum

The advisor has contractually agreed to waive fees through 04/30/2018.

**Definitions** **Russell 1000 Growth Index** measures the performance of the large-cap growth segment of the U.S. equity universe; includes companies with higher price-to-book ratios and higher forecasted growth values **Earnings 5 Year Historical Growth Rate** the amount of increase that a specific variable has gained within a specific period and context **Free Cash Flow** measure of financial performance calculated as operating cash flow minus capital expenditures; represents the cash that a company is able to generate after laying out the money required to maintain or expand its asset base **Price/Book** ratio used to compare a company's current market price to its book value **Price/Earnings** valuation of a company's share price compared to its earnings per share; commonly used by investors to determine the value of a company **Weighted Average Market Cap** is the portfolio-weighted mean capitalizations of all equity securities

**Mutual Fund investing involves risk. Principal Loss is possible. The Fund may invest in foreign securities which involve greater volatility and political, economic and currency risks and differences in accounting methods. Investing in small and medium-sized companies involves greater risks than those associated with investing in large company stocks, such as business risk, significant stock price fluctuations and illiquidity. Growth stocks can perform differently from the market as a whole and from other types of stocks. Growth stocks tend to be sensitive to changes in the earnings of their underlying companies and more volatile than other types of stocks, particularly over the short term. To the extent that the Fund invests in ETFs, there will be some duplication of expenses because the Fund would bear its pro rata portion of such ETF's management fees and operational expenses.**

*Before investing, investors should carefully consider the Fund's investment objectives, risks, charges and expenses. The summary and statutory prospectuses contain this and other important information about the investment company, and it may be obtained by calling 800-542-7888 or visiting [www.congressasset.com/funds](http://www.congressasset.com/funds). Read the prospectus carefully before investing.*
